| UI/UX         | 01           |
| Performance   |              |

**Suggestions for My Account Functionality in next period of testing –**

1. Add more accuracy while Customer Registering include more details like Address, Alternate phone number, etc.
2. For login Functionality add the OTP Functionality it is more safe than entering E-mail and Password.
3. E-mails not received from the application, so there should be possibility of user may miss any important information. So fix this issue so can user can receives E-mails.
